RESPONSE UNDER 37 CFR 1.312

Dear Sir:

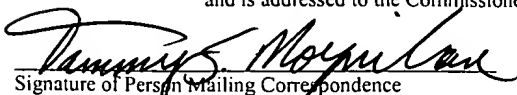

Applicant wishes to bring to the Examiner's attention that in making Examiner's Amendment to Claim 19 the words "on said surface" should also be deleted from line 8 of Claim 19 since "on a surface" was removed earlier in the claim. Applicant requests Examiner to correct the Examiner's Amendment accordingly in a Supplemental Notice of Allowance. Applicant does not qualify for small entity status. A Supplemental Notice of Allowance is thus also requested with a new PTOL-85 form listing the large entity issue fee due. Please note that the Petition for Extension of time filed February 7, 2006 was at a large entity rate.

Applicant wishes entered into the record of the telephone interview on February 7, 2006 that cancellation of Claims 43-46 was agreed to by Applicant without prejudice to inclusion of such claims in a possible Divisional Application.

Further, it was Applicant's understanding that language "quantity or offset providing the color of said display" would be removed from Claim 39 in the Examiner telephone interview on February 7, 2006 in order to enable rejoinder of Claim 39 and its dependent claims into the application. However, the Examiner's Amendment to Claim 39 removed "or offset providing the color of said display", but left the word "quantity". Correction is requested to also remove the word "quantity" from Claim 39. If the Examiner believes such correction is not necessary, Applicant wishes entry into the record that Claim 39 language "adjustment of each color channel quantity" broadly refers to adjustment of each color channel of the display regardless as to whether such is obtained by an offset or not.

Applicant made a typographical error on page 1 of the Interview Summary filed February 7, 2006 in that on line 12 of the first paragraph "parent applications" should have been "patent applications", in reference to incorporated by reference U.S. Patent No. 6,043,909 and Application No. 09/139,498, now U.S. Patent No. 6,459,425, on lines 4-6 on page 7 of the specification.

Consideration of this Response is respectfully requested.

Respectfully submitted,
